

Balcan Your Complete Guide

# Total Lamp Recycling Services & Supplies

WEEE & Battery Recycling

**Genuinely kinder to the environment**

**BALCAN**

## Services

# Lamp & LED Recycling

## Experts in Lamp & LED recycling

- » National coverage with safe, regular, reliable and efficient service.
- » Containers are only emptied when you decide so you won't be charged for unnecessary visits.
- » The supply of safe, specially designed on-site lamp storage containers.
- » Hazardous Waste Consignment Notes for every job ensuring full traceability of your waste.

## On-Site Service

Balcan's On-Site service provides environmentally friendly recycling for waste lamps. Using a Balcan lamp crusher for the controlled volume reduction of lamps at site means we can transport more lamps in smaller vehicles, using less fuel than transporting whole tubes.

When On-Site crushing is not possible, we offer various storage and collection options.

## Lamp Tubes

Ideal for companies who generate small quantities of waste lamps and where storage space is at a premium.

- » Perfect for electrical contractors who require safe, temporary storage wherever they are working.
- » Each tube holds over 100 tubes (T8)
- » Supplied in various sizes up to 2.5m (8ft tube)
- » Rental rolling or purchase option available.

## Storage

# Lamp Storage Solutions

## LampBanks

LampBanks are a convenient and easy way to store a large number of lamps, providing a clearly labelled designated storage area.

- » LampBanks are lockable to secure their contents against damage or vandalism.
- » Robust construction for siting outside and weather protection.
- » Multiple sizes available for various lengths and volumes.
- » Fitted with runners for easy manoeuvrability.

## Storage Solutions

As the UK's leading lamp recycler Balcan understands the importance of correct storage of waste lamps.

Providing a comprehensive range of LampTubes and LampBanks for waste lamps allows you to pick the best size for your needs.

All our storage solutions are designed to minimise the risk of breakage of lamps and prevent uncontrolled mercury emissions.

## WEEE & Battery Recycling

Dispose of your computers, vacuum cleaners, kettles, drills, fridges and freezers...
